## *Embracing the Summer - Break*

**Dear Parents,**

**We would like to assign some courses of action to make your summer experience a memorable one.**

- Have at least two meals with your child.
- Talk about importance of farmer in our life and their hardship which brings delicious delicacy to our table everyday also teaching them not to waste food.

Let them do basic chores like washing their own plates, folding their clothes, helping in cooking like making vegetable salads, sandwiches and serving which will teach them value for hardship.

- Visiting neighbours house with them to have lovable bonding and learning more from them and build relationship, visiting and staying with grandparents to make the family bond stronger and learning from first hand information and experiences of their grandparents.
- Take them to your work place to make them understand how much hard work you do for the family.
- Do not miss any local festival or market visit.

Thank you once again for your partnership and commitment to your child's education. We wish you and your family a summer filled with joy, laughter, and unforgettable moments.

**Regards:  
Team DPS Gandhinagar**
