CORNER

Dear Readers
Greetings!

I am sure we all will agree that sports make us healthy and strong and teach us to embrace both victories and defeats gracefully. Such lessons, I sternly believe, should be continuously taught to our students as they at a later stage lead to the building blocks of achievement in life. We are proud that our school emphasizes the overall growth of the students – their physical and intellectual development. We are working to lay a strong foundation for our students and want to see them perform well in all spheres of life. It is very important to identify the students' hidden talents and help them hone those skills which they naturally possess. Our school, in the past decade also, has achieved significantly in

this regard. Hence the name of the school is widely known today and is counted amongst the best schools of the state.

We have been constantly working on the fitness and well-being of our students, teachers, and staff. The school has received a Fit India School certificate from the Government of India for conducting various events for the physical fitness and well-being of all the stakeholders. Recently the school hosted CBSE Table Tennis Clusters XIII 2022-23 tournament with approx. 40 CBSE Schools of the west zone and our students and staff proved that apart from academics we are working towards the holistic development of our children. Our children have also won numerous medals and many of them have been selected for CBSE National events as well. Year after year, our students are making us feel proud and this fills me with enough gusto

to provide them all with the best of facilities so that they can flourish up to their maximum capacity. However, all this wouldn't have been possible without the support of our teachers and parents. Hence, I on behalf of the entire school express gratitude and a note of thanks to all my teachers and parents for constantly working towards the betterment of their wards and inculcating in them the right values and skills.

Today whatever height our school has reached, it is owing to the relentless efforts of each one of us. Thank you everyone for being a constant pillar of support at each step the school is taking toward the holistic development of the children.
